Profile

Problem-solving Software Developer skilled in Java and full-stack development (React, Node.js, PostgreSQL) with over 900+ DSA problems solved across LeetCode and Coding Ninjas. Built real-world web apps like MotoHub and LinkUp. Passionate about clean code, scalable systems, and impactful technology.

Education

Guru Gobind Singh Indraprastha University

Delhi, India

B.Tech - Computer Science and Engineering - CGPA: 8.15

2021 – 2025

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Computer Networks
- Artificial Intelligence
- OOPS
- Database Management
- Operating System
- System Design

Experience

Software Developer — Personal Projects & Freelance

2024 – Present

Projects

Moto Hub App | *React, Vite, TailwindCSS, ShadCN, Clerk, PostgreSQL, Drizzle, Appwrite, Sendbird, Axios* [\[Link\]](#)

- Built a full-stack vehicle marketplace using React, TailwindCSS, ShadCN, and PostgreSQL with Drizzle ORM. Integrated Clerk authentication and Appwrite for file storage.
- Enabled real-time reviews with Sendbird and smooth API interactions using Axios, ensuring responsive and user-friendly UI.

Bank Management System | *Java, Swing, MySQL, Git, NetBeans*

[\[Link\]](#)

- Developed a secure banking system enabling user authentication, transactions, and balance management.
- Implemented MySQL database integration using JDBC, ensuring efficient data handling.
- Designed an interactive GUI with Java Swing for a seamless user experience.

Restro Website | *React, Vite, JavaScript, TailwindCss, Mui, Node.js*

[\[Link\]](#)

- Developed a responsive restaurant web app with online ordering and an interactive menu using React, TailwindCSS, and MUI.
- Optimized performance with Vite for fast load times and smooth user experience.

LinkUp (A Social Media Site) | *React, Vite, Appwrite, Tailwind, Node.js*

[\[Link\]](#)

- Built a social media platform with user profiles, personalized feeds, and secure authentication.
- Integrated Appwrite for authentication and database management, ensuring data security.
- Optimized performance and UI using Vite, Tailwind, and Node.js for a smooth experience.

Personal Portfolio | *React+vite , Tailwind ,Html, ShadCn , framer, JavaScript, TailwindCss*

[\[Link\]](#)

- Built a social media platform with user profiles, personalized feeds, and secure authentication.

Technical Skills

Languages: Java, C/C++, JavaScript, HTML, CSS

Frameworks & Libraries: React.js , Redux, Node.js, Express.js, TailwindCSS, jQuery, ShadCN

Tools: Git, GitHub, VS Code, Bash , IntelliJ, Vercel, Postman, NetBeans

Databases: PostgreSQL, MongoDB, MySQL

Other: REST APIs, Clerk Auth, Appwrite, Drizzle ORM, Axios, Sendbird

Strengths

- Solved **900+** problems across **LeetCode** and **CodeStudio**, with a current LeetCode rating of **1562**.
- Skilled in writing clean, optimized, and scalable code with strong debugging practices.
- Certified in Google Analytics 4 and Capital Marketing via Infosys Springboard.
- Self-motivated, fast learner, and committed to building impactful real-world solutions.
