Profile

Aspiring Software Engineer skilled in Java, DSA (900+ problems solved), and full-stack web development (React.js, Node.js, PostgreSQL). Built scalable applications, developed a Car Selling platform, and worked on real-world projects. Passionate about solving complex problems and optimizing systems.

Education

Guru Gobind Singh Indraprastha University   **Delhi, India**
B.Tech - Computer Science and Engineering - CGPA: 8.04   *2021 – 2025*

Relevant Coursework

- Data Structures
- OOPS
- Algorithms Analysis
- Database Management
- Computer Networks
- Operating System
- Artificial Intelligence
- System Design

Experience

Fresher

Projects

Moto Hub App | *React, Vite, TailwindCSS, ShadCN, Clerk, PostgreSQL, Drizzle, Appwrite, Sendbird, Axios*   [Link]

- Developed a dynamic vehicle marketplace for seamless car exploration and listing.
- Integrated Clerk authentication and built a responsive UI with React, TailwindCSS, and ShadCN.
- Utilized PostgreSQL with Drizzle ORM for structured data management and Appwrite for storage.
- Enabled real-time engagement with Sendbird-powered reviews and Axios-based API interactions.

Restro Website | *React, Vite, JavaScript, TailwindCss, Mui, Node.js*   [Link]

- Developed a dynamic restaurant web app with seamless online ordering and an interactive menu.
- Designed a responsive UI using React, TailwindCSS, and MUI for an intuitive user experience.
- Optimized performance with Vite, ensuring fast load times and smooth client interactions.

Bank Management System | *Java, Swing, MySQL, Git, NetBeans*   [Link]

- Developed a secure banking system enabling user authentication, transactions, and balance management.
- Implemented MySQL database integration using JDBC, ensuring efficient data handling.
- Designed an interactive GUI with Java Swing for a seamless user experience.

LinkUp (A Social Media Site) | *React, Vite, Appwrite, Tailwind, Node.js*   [Link]

- Built a social media platform with user profiles, personalized feeds, and secure authentication.
- Integrated Appwrite for authentication and database management, ensuring data security.
- Optimized performance and UI using Vite, Tailwind, and Node.js for a smooth experience.

Portfolio website) | *Html, CSS, JavaScript, TailwindCss*   [Link]

- Built a social media platform with user profiles, personalized feeds, and secure authentication.

Technical Skills

Languages: Java, C/C++,JavaScript, HTML/CSS
Frameworks: React, Express, Node.js ,jQuery, TailwindCss
Developer Tools: Git, VS Code, IntelliJ, bash
Databases: PostgreySql, MongoDB

Strengths

- Solved **900+**problems solved across **Leetcode**, **Code360**.with current rating as 1562 on leetcode.
- Ability to write clean, optimized, and scalable code.
- Earned certifications in Google Analytics 4 and Capital Marketing from Infosys Springboard.
- Passionate about learning new technologies and building impactful solutions.
